

Easy VoIP - VoIP Telephony Services with free Trunking Support

[See our VoIP Rates](#)

Every Day more and more people learn the benefits of Internet Telephony based on the SIP protocol, the most of them are end users who search the way to communicate with other people any where in the world with the cheapest way. The most users use their computers to use the VoIP Telephony.

Whats Going on in case you need to use the VoIP Telephony for your Business with your own IP/BPX?

The most VoIP Providers who sell VoIP Telephony Service are not able to cover the needs of a company that use Private IP/BPX Server, the one of the reason is that the VoIP Accounts that they give does not Support Simultaneous Calls so only one person can make VoIP Calls, an other reason is that the voip accounts can not be multiple registrations to SIP Server.

Our VoIP Telephony Service "Easy VoIP" is able to cover all the needs of a Company. Our VoIP Accounts, Support VoIP Trunking so our SIP Server allow every user of your Company to make VoIP Calls the same time without any problem.

An other benefit of our VoIP Service is that we allow the VoIP accounts to make multiple registrations so you can be register more than one times with any SIP Device or IP/BPX Server. As Sample you can have two IP/BPX Servers for your needs and you can use only one VoIP Account of our Service.

You can have also full reports like VoIP Call, Costs, Destinations, Duration of each call and many other things with a friendly Web Interface.

Use our VoIP Service to any Destination in the World with Very Low Rates and the best Quality.
Request a VoIP Account for your Company and put down the cost of your phone calls.
